Shaul hi
I hope this email finds you well.
I've told Nili following our meeting that for long time I didn't meet a person who is so intensely alive,attentive to nuances and thinks boldly and creatively about what he sees. I'm thinking once and again about some of the ideas you've raised and looking forward for more meetings.
in the meantime allow me to forward to you the Burma opportunity (as well as a Kurdistan one). The Fund is very young and still small. But the players have some track record.i'll provide you some more info re this group and my relations with them when we meet. I've just told RP (CEO of ERGO) that I have a friend(no more details) who showed some interest in what happens in Burma and I forward to you his response.
let me know if you are interested in more info re this.
best
Ehud
